PROFESSIONAL SUMMARY

Full-stack Software Engineer with 4+ years of experience building scalable web and mobile applications using React, Next.js, and Ruby on Rails. Skilled in developing end-to-end systems, API integrations, and data-driven solutions including web scraping. Passionate about creating high-performance and user-friendly applications across web and mobile platforms.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Ruby on Rails, Node.js, NestJS

Mobile: React Native, Swift (UIKit)

Database: PostgreSQL, MySQL

Tools & Technologies: Git, Jest, Figma, Adobe XD

Others: Python (Data Scraping), WordPress

PROFESSIONAL EXPERIENCE

Software Engineer

Mashup., Manila, Philippines

January 2024 – Present

- Developed and maintained responsive web applications using React.js and Next.js
- Built mobile applications using React Native for cross-platform deployment
- Designed and implemented backend APIs using Ruby on Rails, NestJS, and Node.js
- Created data scraping solutions using Python to extract and process structured data
- Wrote unit and integration tests using Jest to ensure code reliability

- Collaborated with cross-functional teams using Git-based workflows
-

Software Engineer

Koda Kollektiv Comp., Mandaue City, Cebu

April 2023 – January 2024

- Built and enhanced web applications using Next.js and Tailwind CSS
 - Developed new features for the Graffwriter application
 - Created iOS mobile applications using Swift (UIKit)
 - Implemented backend functionalities using Ruby on Rails
 - Maintained version control and team collaboration using Git
-

Software Developer

Ehrlich Company, Cebu City

June 2021 – October 2022

- Developed an internal system from scratch using React.js and Ruby on Rails
 - Built and maintained frontend interfaces for web applications
 - Designed backend systems and managed PostgreSQL databases
 - Worked with Laravel (PHP) and WordPress for additional system features
 - Implemented testing using RSpec
 - Used Git for version control and collaboration
-

Software Developer

Mataverse Company, Cebu City

June 2020 – June 2021

- Developed backend systems using Ruby on Rails
 - Managed and optimized PostgreSQL databases
 - Built and maintained WordPress-based solutions
 - Collaborated with team using Git
-

PROJECTS

Cebu Rent (Real Estate Platform)

<https://cebu-rent.vercel.app/>

- Developed a property listing platform using Next.js and Tailwind CSS
- Implemented dynamic data rendering and user-friendly UI
- Designed features for browsing and managing rental listings

AI Summarization App

<https://summarization-ai-one.vercel.app/>

- Built an AI-powered text summarization tool
- Integrated external APIs for natural language processing
- Designed a clean and intuitive user interface

EDUCATION

Bachelor's Degree

Cebu Technological University – Danao City, Cebu

July 2016 – August 2020
